ANOTHER GOOSE EGG PRESENTED

Danville Won Third Sraight Game of the Series Yesterday.

CHARTERS VERSUS WINSTON

These Two Box Artists Will Work in To-day's Game. The Score.

Danville presented to Barton Heights another large, round goose egg yesterday afternoon and took the third game of the series of four to be played; score 7 to 0. Mr. Moore had more curves than necessary and he was the orator for the evening. Twelve men attempted to make debuts before him, but his pe culiar twists prevented them.

Errors behind Crawford took the starch out of the game and from the third inning three was nothing doing in the rooting line. When the visitors got hits they got them at the same time that the locals were making errors. And when the ilighlanders landed safely on the sphere it was when the licks counted for naught. Crawford didn't allow but five hits and this is all that Moore permitted. McEvoy was smacked twice af ter he made his debut.

But what's the use arguing the matter? Danville had the best of the thing and the team won because the players are old at the game and don't get excited. With the ragged team that it had Barton Heights put up the best exhibition pos-

Measure of Swords To-day.

There's always some consolation to be found from a game, the like of which was played yesterday. The consolution this time is in knowing that there will be a team here for to-day's game that will do things to Danville, Mills, who has been taking the twisters from the curveologists who have been sojourning, curveologists who have been sojourning, will be behind the bat to-day and Winston, allas "Big Liz," will be in the box. On the other side will be Charters, ha of spit-ball fame, and Benny, the man who talks. Charters and Winston are rivals of the bitterest sort, and the fans may expect a pitchers' battle.

Danville leaves here to-night, after playing the fourth game with Barton Heights, and will be in Norfolk for two or three games next week.

The Brownles play Staunton here Tuesday, Wednesday and Thursday of next week, and Petersburg comes here for a try at Manchester on Monday.

The official score of yesterday's game follows:

At Fort Riley, Kansas, the scene of the national competitions in August of last year, it was with difficulty that thirty-six competitors, the minimum number allowed by the conditions, were secured for the national individual match. When the bugle sounded this morning, 657 riflemen, a good-sized regiment, reported riflemen, a good-sized regiment, reported at the firing line. Management and executive ability of a high order were essential to handle the vast throng., The ossential to handle the vast throng. The men in uniform were divided into relays, and some of them were forced to wait several hours for their turn to shoot. They started in at 200 yards. Some few concluded the work at 300 yards, and began to fire their scores at 500 yards before "ccase firing" was sounded for the day.

Cadets Made Fine Showing. The excellent showing of the mem-ers of the United States corps of cadets from West Point was a feature of to day's firing. Although this is the firstime the West Point cadets have particle

I at once stated that I should be very glad to run the match off as proposed, but thought it advisable, before further publicity was given to the matter, to have the running rules accepted by both parties. These running rules I drew up, and with a few exceptions they were acceptable to Mr. Higginson, and I beg to enclose you copy of these properly and accepted. I would ask that you acknowledge receipt of this by wire and publish same in your issue of August 25th, together with the running rules.

Old Point Comfort Damaged.

The steamer "Old Point Comfort," opcrated by the Virginia Navigation Company between this city and Norfolk, met
with an accident yesterday afternon just
before she resched Richmond. Her machinery was injured so that she will be
out of commission for several days. The
Virginia Navigation Company will charter another steamer to take the place
of the "Old Point Comfort" until her
repairs are completed. She will be able
to go down under her own steam this
morning.
